We are updating our GLOBALG.A.P. IT Solutions on a regular basis. To keep you informed, we send you an update about the latest changes and news. Alongside news on the Audit Online Hub (AOH), this newsletter will now feature news on Validation Service (VS) and CB -AT. If you would like to see the latest changes in brief, please click [here](#) to visit our website. For a more detailed overview, please read on.

Audit Online Hub

Recent changes and more

As announced in our previous newsletter edition, version 3.4.4 was transferred to BETA environment (beta-audit.globalgap.org) on 18 April 2023.

Please note that the transition towards the LIVE (audit.globalgap.org) + DEMO (demo-audit.globalgap.org) environments is expected to happen in calendar week 17 (24-30 April 2023).

Important note to API users

We strongly recommend that API users check in AOH BETA whether the above-mentioned version causes the API implementation to stop functioning properly. If you do not experience any issues, please carry on and use the system as intended. If difficulties arise, please contact our [customer support](#) immediately.

AOH v3.4.4

New features:

- Embedded the “New Terms of Use for IT systems” on the log-in page of Audit Online Hub.
- Excel Template (Smart audits (v6))
 - Added a new checklist (CKL) spreadsheet to the current layout to answer all principles and criteria. Note that after downloading the template from Audit Online Hub, the new CKL spreadsheet will appear as many times as standards/add-ons are assessed in a given audit report (One CKL per selected farm assurance producer [FAP]).
 - Added a new Non-compliance and Corrective actions (NCCA) sheet to the current layout. It is important to mention that:
 - The new NCCA sheet contains:

- A section for the Non-compliance and Corrective actions taking into account that results are derived from the CKL sheet.
- A section for the “Summary calculation” in read-only mode. The percentage of compliance is automatically populated based on the answers provided on the CKL sheet.
- Note that after downloading the template from Audit Online Hub, the new NCCA spreadsheet will appear as many times as standards/add-ons are assessed in a given audit report (One CKL per selected FAP).

Configuration changes:

- Enabled all Reporting Options regardless of the company type to which the producer is registered (Smart audits (v6)).
 - From now and beyond the following Reporting Options can be audited for both company types Producer and Producer Group:
 - Single site certification
 - Multisite without QMS
 - Multisite with QMS
 - Site of a multisite with QMS
 - Group Certification
 - Member of group certification
- Made the input of the Audit types and Audit attributes data fields in the audit report compulsory (Smart audits (v6)).
- Improved the layout of the Quality Management System pdf report for all Multisite with QMS and Group Certification audits (Smart audits (v6)).
- Made compulsory the input of Validity dates only in case of Positive certificate Decision (Smart audits (v6)).
- Added validation to avoid a Positive certificate Decision in case of the audit report status is set to “Closed non – compliance” (Smart audits (v6)).
- Enabled the manual entry of sites audited under the section “Audit duration per day” (Legacy audits (v5)).
- Added RMS (Residue Monitoring System) label to the header of the RMS section on the checklist of Group Certification audits (Smart audits (v6)).

Bugfix:

- File loading at the Multireport level has been corrected.
- Issue with the number of workers on the report for GRASP audits has been corrected.
- Issue with granting access to a given audit report has been corrected.
- Visualization of "Product Handling audit details" section while creating QMS audits has been amended.
- The system not populating GRASP's sites on the “Audit duration per day” section has been fixed.

Achieved milestones:

- [Milestone 5](#): Offline (excel) upload for audit reports in AOH.

Thank you to all our users who send us valuable feedback on their experience with AOH.
