

SCHEME SPECIFIC DATA ACCESS RULES FOR

Scheme name: QS-GAP Production/QS-GAP Erzeugung

Scheme owner: QS Qualität und Sicherheit GmbH

Benchmarked to: GLOBALG.A.P. IFA v6

This document is a supplement to the GLOBALG.A.P. data access rules and displays the additional specific data access rules chosen by the scheme owner. For more details, please refer to *section 6 “Data access rules for benchmarked certification system owners (BCSOs)” of the GLOBALG.A.P. data access rules* (in their latest version) on the [GLOBALG.A.P. website](https://www.globalgap.org).

6 DATA ACCESS RULES FOR BCSOS

6.1 Standard and company data

6.2 Product and certification data

	BCSO	GLOBALG.A.P. Secretariat	Certification body (CB)	Market participant	Public user
Product data					
Quantity data ¹⁾	x	x	x	<input type="checkbox"/> ¹⁰⁾	
Audit checklist and result	<input type="checkbox"/> ⁹⁾	<input type="checkbox"/> ⁹⁾	<input type="checkbox"/> ⁹⁾	<input type="checkbox"/> ⁹⁾	

“x” indicates that this data is visible to users assigned to the respective data access group (made available either by the GLOBALG.A.P. Secretariat itself or by one of its data partners).

Notes: See section 3.3. If product data is not relevant to a benchmarked scheme/checklist, this data is not displayed at all for the respective scheme/checklist (e.g., parallel ownership).

⁹⁾Available and shared in the GLOBALG.A.P. IT systems if requested by the BCSO and released according to these data access rules as defined in the scheme rules (for benchmarked schemes) or GLOBALG.A.P. normative documents (for benchmarked checklists). If audit checklist data is not available in the GLOBALG.A.P. IT systems, agglomerated audit checklist data will be shared with the GLOBALG.A.P. Secretariat by the BCSO.

¹⁰⁾Configuration voluntary for the BCSO. If the BCSO makes it mandatory for their producers, the data will be available to market participants or public.
